PROCEDURE

STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface; turn off the ignition and allow the engine to cool.

STEP 2 Test fit the speaker grills to the speaker mesh surface. Be sure that the speaker grill adhesive completely touches the mounting surface.

ATTENTION! Ensure the area of installation is free of grease, oil, dirt or other debris to ensure proper adhesion. Kuryakyn WILL NOT issue a warranty on any parts lost due to improper installation.

STEP 3 If the area is extremely dirty, clean with a mild cleaner. Make sure the mounting area is clear of all contaminants to ensure proper adhesion. Make sure the area is clean and completely dry before mounting the speaker grills.

ATTENTION! The adhesive will not bond correctly if applied at temperatures less than 50°F. Do not attempt this installation in temperatures less than 50°F.

STEP 4 Using the back of your fingernail, rub the adhesive backing on the speaker grills to activate the adhesive. Remove the backing from the adhesive pad.

STEP 5 Center the speaker grills over the speaker mesh surface, then press and hold the speaker grills in place for one (1) full minute. Full bonding strength will occur in 24 hours.
